

iPoker's Two Billionth Hand Promotion

Cash tables' Promotion

- ♠ Starting at cash table hand ID 1,990,000,000, iPoker will give out cash prizes to all players who participated in all hands that are named: "Golden Hands" and "Platinum Hands".

Golden Hands Prizes

- ♠ A golden hand occurs every 500,000 hands (as per the consecutive hand ID's). Prizes will be split between the actual winner of the hand and the participating players as per the table below.
 - ♠ A golden hand winner actually wins **four** times:
 - Once for playing good poker and winning the hand.
 - Second, the player receives a cash prize for being a winning player of a golden Hand.
 - Third, for splitting the same cash prize with the other golden hand participants.
 - Last, the winner of the golden hand will win a token to the Monthly Million Guaranteed Tournament on January 10th, 20010. (Value of \$535).

Bubble Hands Monthly Million Bounty Freeroll

The participating players of the last 100 hands preceding and including the two billionth hand, hands: 1,999,999,901 – 2,000,000,000, will participate in the bubble hands freeroll. The freeroll will feature 20 tickets to the monthly million guaranteed tournament in January (Jan 10th). In addition, the two billionth hand winning player will have a \$2,000 bounty in this tournament.

- ♠ The winning player (1st place) of the bounty freeroll which eliminates the two billionth hand winner will win both the monthly million guaranteed token and the \$2,000 bounty.
- ♠ In case that the two billionth hand winning player will also win the bubble freeroll he will be entitled to the bounty.
- ♠ The bubble freeroll will take place on a Sunday; at least a full week after the two billionth hand is dealt. The exact date and time will be announced by iPoker after the two billionth hand is dealt.
- ♠ The bounty player will have his nickname changed for the duration of the tournament, in order to accommodate an identifier of this bounty.

Terms & Conditions

1. The promotion will start when hand ID 1,990,000,000 is dealt. The hand ID's are determined by the number assigned to them by our system, as they appear on the table (on the top-left corner).
2. Tournament hands do not participate in this promotion (they are assigned different hand ID's).
3. Platinum hands occur every 2,500,000 hands as follows: 1,990,000,000; 1,992,500,000; 1,995,000,000; and 1,997,500,000. (A total of 4 platinum hands).
4. Golden hands occur every 500,000 hands as follows: 1,990,500,000; 1,991,000,000; 1,991,500,000; 1,992,000,000; 1,993,000,000; 1,993,500,000; 1,994,000,000; 1,994,500,000; 1,995,500,000; 1,996,000,000; 1,996,500,000; 1,997,000,000; 1,998,000,000; 1,998,500,000; 1,999,000,000; 1,999,500,000. (A total of 16 golden hands).
5. The two billionth hand will be the hand which is assigned a hand ID: 2,000,000,000.
6. All participating players of golden and platinum hands will take a cash prize as detailed in the above tables.
7. Winners of both golden and platinum hands will be entitled for a monthly million guaranteed tournament ticket (on January 10th 2010). In case of a split pot, the winning player sitting closer to the dealer button will be entitled to the entry ticket.

8. All participating players of every golden and platinum hand will split their cash prize equally and together with the winner of the hand. This means that in a 6 players table, in which the hand winner wins a prize of \$X, the rest of the players in that table will split their \$X equally with the winner: $X/6$, so the winner actually wins $\$X + \$X/6$.
9. If a winning hand has two winners or more, they will divide the sum of the winner bonus and the participating players' bonus.
 - For example: in a 5 players table where the winner takes \$50 and the participants split \$50, what will happen is as follows:
 - The two winners will take \$35 each, by this formula: $(50 + ((50 * 2) / 5)) / 2 = \35 .
 - The participating players split the remainder, meaning \$10 each, by this formula: $((50 * 2) - (35 * 2)) / 3 = \10 .
 - The total prizes for the hand will therefore remain the same: \$100.
10. Players must be dealt cards on the hand in order to be eligible for the bonus. Players sitting out will not be eligible.
11. Players suspected of "soft playing" will not be entitled to any bonuses. iPoker's collusion team has the final word in any such cases.
12. All players in hand ID 1,999,999,901 - 2,000,000,000 (total of 100 hands including the two billionth hand) will participate in a special bubble bounty freeroll. The freeroll will give away 20 tickets to the monthly million guaranteed tournament on January, and a bounty for the winner. The freeroll will take place on a Sunday, at least 7 full days after the two billionth hand is dealt, as per an announcement from iPoker.
13. In order to participate in the bubble bounty freeroll, the two billionth hand winner must agree to have his nickname changed for the duration of the freeroll.
14. If the bounty player wins the bubble bounty freeroll he will win the bounty in addition to his other prizes.
15. In case of a split pot in the two billionth hand, the bounty will be split between all the hand winners.
16. Winning hands may be published by our cardrooms and their affiliates. Players who do not agree to this will not be entitled to the bonus.
17. All decisions as made by iPoker are final.
